Quote from the CEO of SonoScape Co., Ltd.

“ SonoScape is a Chinese leader specializing in developing and manufacturing cutting-edge color Doppler ultrasound systems and ultrasound transducers. Our corporate mission is to deliver revolutionary high-value products and services that improve healthcare worldwide. As the only China Top Brand in the medical industry recognized by General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China, SonoScape will be continuing providing the highest quality ultrasound systems and services at the most competitive prices for our customers worldwide.”

Mr. Jinzhong Yao

Quote from the analyst of

FROST & SULLIVAN

“ SonoScape Co. Ltd. has exhibited exceptional entrepreneurial capabilities in developing S8 - the portable colour Doppler System. The advanced 4D capabilities of the ultrasound unit are customised for the high-end European market and yet available at much affordable prices. The company's priority in maintaining high levels of quality in its product lines is well supported by the negligible after-sales costs associated with its ultrasound systems. Also with the launch of SSI-1000, the hand carried ultrasound with multiple clinical applications; SonoScape has made significant strides towards establishing itself as a global medical equipment manufacturer.”

Mr. Krishanu Bhattacharjee

A8

Premium Performance at Affordable Price

SonoScape

www.sonoscape.com

Continuing the legacy of SonoScape, A8 has been created to be a high value B/W cart-based system. A 15" LCD monitor with articulated arm and high configuration make A8 outstanding in the B/W ultrasound market. Standard three sockets are freely available for fifteen transducer choices, supporting a wide range of clinical applications.

Excellent Ergonomic Design

- + The high resolution 15" LCD monitor with an articulated arm and a rational handle provide outstanding ergonomics.
- + Ultra large 160 mm*160 mm imaging area provides more accurate diagnosis for various applications, which is a truly advanced function found in no other systems of the same class.
- + Slim and mobile cart-design ensures A8 performing diagnosis in small spaces or moving speedily among rooms.

Ease and Efficiency of Exams

- + M-tuning optimizes the image quality at the touch of one button. This function significantly reduces operating time and improves the consistency and accuracy of diagnosis.
- + Clipboard function for quick patient image capturing and reviewing enables users to retrieve and read previous images immediately on the screen.
- + Digital measurement hotkeys endowed with user-definable formulae offer efficient quick one-key reproduction measurements.
- + 180° transvaginal transducer makes no more tough work both for doctors and patients in the endocavity scanning.

Powerful Documentation Abilities

- + PC compatible PDF report function lets the diagnostic findings more concise for sonographers while the diagnostic reports are clearer for patients.
- + Full patient database solutions: 160G hard drive, DVD, 4 USB2.0 ports, DICOM3.0 and AVI/JPG format.
- + Fifteen available transducer choices support a wide range of applications: General, Radiology, OB/GYN, Urology, Pediatric, Musculoskeletal, etc.
